

## PREDICT TIRE PRICE HIGHER

Unofficial Word From Akron Manufacturers That Trend Will Be Upward

Tire prices are going up again! This is the unofficial word from Akron tire manufacturers who frankly admit that if tire companies are to make money in 1922 the prices of tires must follow an upward trend.

The two prime factors in the contemplated revision upward of tire prices are the steadily increasing price of rubber and cotton fabric. Crude rubber has jumped 50 per cent in cost since last June and long staple cotton has gone up 50 per cent in the last six months. These two items have so increased production costs that the marginal profit has been reduced to a point where it is not sufficient from the viewpoint of sound, economic business.

The strong intimation of increased prices in the spring is taken in most quarters as a frank admission upon the part of tire manufacturers that they went to the extreme and overdid things in their price-slashing war of last year, and that they cut tire prices to a point that could not be endured.

The year 1921 was notable for the series of tire price cuts enforced. The movement was started early in the year. The motoring public had hardly gotten adjusted to the new schedules when prices on tires again dropped.

The series of price cuts approximated 40 per cent for the year in most instances and carried tire prices below their prewar levels. Add to this the increased mileage of the present-day tire and it will be seen that tires now are cheaper than ever before in the history of the automotive industry, the motorist getting more miles per dollar than at any previous time.

Manufacturers admit they cannot continue to market tires at the present price levels, make money and pay dividends. Just how soon the revision upward of prices is to come no manufacturer will predict. However, it is regarded as safe to say that some readjustment of tire prices will come before summer.

### OLSON IS CHARGED WITH GRAND LARCENY

A complaint was filed yesterday against Oscar Olson, 37 years of age, who was arrested Thursday by Sheriff Richard Pincock, charging him with grand larceny for the theft of a wagon owned by Earl Mitchell. Olson was said to have been living in the wagon in the western section of the city with a woman, who he admitted, was not his wife. The woman was questioned by the officers but later released after Olson declared she took no part in the wagon theft. Olson said he had taken the wagon, according to the officers and intimidated he would plead guilty to the charge. He is now in the county jail.

## EUREKA TO GET DELAYED MAIL

W. H. Taylor of Ogden R. M. S. Arranges for Delivery to Town

From March 15 until March 24 when arrangements were made by W. H. Taylor, chief clerk of the Railway Mail Service, for a resumption of mail service, the town of Eureka, Nev., had been isolated from the outside world.

Mr. Taylor returned to Ogden yesterday. The breaking down of the mail service was due to the suspension of the Eureka Nevada railway running from Palisade, Nev., to Eureka. The suspension of the railroad was due to floods caused by the melting of the snow along its right of way. It is understood that it will be sometime before the roadway is repaired.

Arrangements have been made by Mr. Taylor for transporting the mail from Elko, Nev., by wagon and sleds by the way of Railroad canyon to Eureka. It will require three days to make the trip from Elko and those to whom the contract has been let started from Elko equipped with the necessary tools to dig their roadway out where it was covered with snow. An accumulation of approximately 500 pounds of parcels-post packages were lying at Palisade which had been mailed to Eureka and which have been sent to Elko upon the arrival of Mr. Taylor at Palisade.

He said that the transportation of mail from Elko was a laborious and time consuming undertaking under the present conditions.

## Ambition

Ambition is back of every success. Ambition has actualized the impossible, it has made armies, cities, nations—all things give way to ambition.

This store has an ambition to make every month's sales increase in volume over the corresponding month of the last year. That ambition has been satisfied for March, 1921. Now we are starting out to beat our record of 1920. Extra good values in merchandise that is in demand will make this possible. Every department will contribute its share to ambition.
